

FOR YOU®

ABOUT US.

4U is a music label and event collective focused on Afro House, Indie Dance, and underground electronic music experiences. Through curated events and original productions, 4U continues to grow a strong community across Mexico and international audiences. 4U operates between Mexico City (CDMX) and Guadalajara, Mexico, two of the country's most important electronic music and cultural hubs.

FOUNDERS, PRODUCERS & DJs.

ERMO (MX) & LEMOND are the founders, producers, and resident DJs behind 4U. Together, they lead the creative direction of the project, combining analog-driven sound design with electronic music production. Their sound identity mainly focuses on groovy and percussive rhythms, strong low-end energy, and analog elements, creating immersive musical journeys for both dancefloor environments and curated listening experiences. Their productions blend Afro House, Indie Dance, and underground electronic influences.
